## Anantara Desaru Coast Residences: The Epitome of Beachfront Living with Easy Access to Singapore

By Home Journal

2022-08-03

Perched on the pristine Peninsular Malaysia, Anantara Desaru Coast Residences is a boutique collection of 20 three and four-bedroom beachfront residences, each with a private infinity-edge pool as a focal point.

The complex now welcomes the first group of owners in time for the opening of the new Desaru Coast Ferry Terminal, and the commencement of a direct ferry service from and to Singapore.

Located in Johor Darul Ta'zim, Desaru Coast is home to world-class hotels and resorts, championship golf courses, a family-friendly water park, a convention centre, with more to come. Starting this month, the Desaru Coast Ferry Terminal will offer 90-minute round-trip direct ferry services connecting to Singapore's Tanah Merah Ferry Terminal, available from Thursday to Sunday.

Facing the South China Sea, the beachfront villas at Anantara Desaru Coast Residences offer direct access to Desaru Coast's sandy beaches. The four-bedroom duplex villas will suit large families and investment buyers alike.

Meanwhile, each duplex villa features two master en suites, separate entrances for ground and upper living spaces, as well as a private wellness room (equipped with a treadmill and spa-grade massage bed), which can be converted into an office, home cinema or additional bedroom.

The development offers professional management, maintenance and services provided by the five-star Anantara Desaru Coast Resort & Villas. Residences can also enjoy a host of dining, spa and leisure facilities, as well as private on-demand services from the resort's chefs, butlers, sommeliers, and wellness practitioners.
