Take a leisurely ferry ride to a luxury resort, play a game on an app or enjoy an eco-trip

Desaru, here we come

Forget about the messy and stressful airport situation — take a leisurely ferry ride to your next holiday destination and stay in the lap of luxury. We suggest Anantara Desaru Coast Residences, a boutique collection of 20 luxury seaside villas on Peninsular Malaysia's pristine southeastern coastline. With the opening of the Desaru Coast Ferry Terminal and the commencement of a direct ferry service from and to Singapore, your holiday gets a little more convenient. The new Desaru Coast Ferry Terminal can process 300 passengers with a new-generation e-gate, making immigration screening more efficient at peak times.

Anantara Desaru Coast Residences' beachfront villas offer direct access to Desaru Coast's beautiful sandy beaches, while terrace villas boast elevated views of the South China Sea. Four-bedroom duplex villas, meanwhile, will suit large families and investment buyers alike. Each duplex villa features two master en-suite choices, separate entrances for ground and upper living spaces, as well as a private wellness room equipped with a treadmill and spa-grade massage bed – fully convertible into an office, home cinema or additional bedroom.
